

“CAS leading post-pandemic AI”

# AICAS 2022

IEEE International Conference on Artificial Intelligence Circuits and Systems

June 13-15, 2022 Songdo Convensia, Incheon, Korea

[www.aicas2022.org](http://www.aicas2022.org)

## AICAS 2022 Exhibition Introduction

Please send the company introduction or description of exhibition to AICAS 2022 secretariat. If you don't have any materials, please fill out this 'Exhibition Introduction'. The company introduction and exhibition introduction will be uploaded with company CI on the online exhibition page on the website. We recommend a **pdf file format** for materials. Thank you for cooperation.

Company Name	Mobilint, Inc.
Website	<a href="https://www.mobilint.co">https://www.mobilint.co</a>
Contact number	02-552-9660
E-mail	<a href="mailto:contact@mobilint.co">contact@mobilint.co</a>
Exhibit item	Computer Vision Demo with an AI Accelerator(NPU)

### Introduction

※ Please fill out the exhibition or introduction of the company in English.

Mobilint is a Korean startup that develops deep-learning inference chips for edge devices. It was founded in 2019 by CEO Shin who developed the world's first edge ASIC for CNN/DNN deep-learning in 2016.

A year after the foundation, Mobilint submitted MLPerf results and received the best score among Korean companies, proving the excellence of the technologies.

Mobilint, composed of many passionate young talents, is a very energetic and ambitious team and is gearing up for the new era of AI by developing innovative deep-learning chips.

In this exhibition, several computer vision applications that use our NPU will be showcased. See how our NPU brings intelligence to edge devices.
